Co-production

Cat Duncan-Rees
Stockport Together – Policy Manager
Think Local Act Personal – Coproduction Advisor
....a future vision

• An opportunity for new ideas and ways of working.

• A different paradigm and a mindset shift from improving services to improving lives

• Doing WITH and not to – ‘co-creation’

• Co-production – valuing people ‘asset based’ thinking

• Building community capacity, support for self-management, people taking control.
Coproduction - supports the growth of shared space, blurs boundaries.

- Coproduction has the potential to influence...
- Hospitals – how do we draw them in to understand the importance of coproduction

- Potential to help create the space in which coproduction can happen
- Community, Conversation and Co-production...
Role and Potential of Coproduction

To build links between People, Health and Social Care organisations, voluntary, community organisations and communities to develop the understanding of coproduction and support people to put ideas into practice.

A Stockport ‘Call to Action’
Four areas to consider

**Give Your Workforce the Training and Tools**
Shift from ‘doing to’ to ‘working with’

**Promote Health as a Social Movement**

**Develop Place-Based Health and Community Networks of Support**

**Commission Differently**
Day Services Co-design
Dementia Strategy
Co-design
People Powered Health
Mel’s Story
GIVE YOUR WORKFORCE THE TRAINING AND TOOLS

Shift from ‘doing to’ to ‘working with’

100 Day Challenges
The art of discovery...
**COORDINATION**

making people or things work together by putting them in order to make a predetermined whole

**CO-OPERATION**

willing to give help
willing to receive help

**CO-PRODUCTION**

what could we create with what we have to meet... our needs a very different conversation
Co-production
