

Professional membership

Criteria for joining

Professional membership is for non-commercial organisations that share National Voices' vision of a system in which services are built around people. National Voices membership gives professionals the opportunity work in close partnership with the voluntary sector and patients.

Your organisation must meet the following criteria:

- ❑ You support person-centred care: people having as much control and influence as possible over decisions that affect their own health and care. You champion people being partners in the design of services, research, innovation and improvement – and you involve them in your own work.
- ❑ Your organisation is a professional or leadership body and/or is involved in planning, delivering, regulating or advising health and social care services in England. Organisations need to cover England but may have a wider focus than England only.
- ❑ The aims, objectives and working methods of your organisation are written down in a publicly available document.
- ❑ Your organisation is properly constituted and not time limited for a particular purpose.
- ❑ You have a commitment to equal opportunities.

If you can answer yes to all of the above, join now. Download an application form here. Once completed, email it to membership@nationalvoices.org.uk.

Disappointed you don't meet our membership criteria? Get in contact to talk to us about other opportunities to work together. Email info@nationalvoices.org.uk or call 020 3176 1208.
